EDP AUDITOR

The Board of Governors of the Federal Reserve System, which serves as the nation's central bank, is seeking an EDP Auditor to participate on and, in some cases, lead electronic data processing (EDP) audits of the Board's mainframe and distributed computer systems. These audits assess and promote economy, efficiency, and effectiveness and help prevent and detect fraud, waste and abuse. The EDP Auditor also leads follow-up reviews of previous audits to determine if recommended actions were implemented and participates in the Systems Development Life Cycle of major systems under development to identify internal control, efficiency, effectiveness and project management issues. Must have or be able to obtain a secret security clearance.

Qualifications:
- Audit, development, or system administration experience with one or more of the following: Active Directory, DB2, ACF2, UNIX, Oracle, and PeopleSoft.
- Minimum of 5 years EDP audit or related information technology experience.
- Certified Information Systems Auditor preferred.

The Board offers an excellent benefits and compensation package including medical/dental insurance, retirement plan, transportation subsidy, and academic assistance. If interested in applying, submit resume online at www.federalreserve.gov. Click on "All" to apply. Click on requisition 004453/EDP Auditor. Click on submit resume or fax to 202-452-3863. Must reference job code 004453/int-IG/NET on all correspondence. The Board of Governors is an Equal Opportunity Employer.
